

**Dear Colleagues and Friends,**

We will be pleased to welcome you to ICSST' 2007: **5th International Conference on Separation Science and Technology** to be held on Oct. 14~Oct. 16, 2007 in Beijing, China.

In the new millennium, resource lacking, environmental pollution, and energy crisis are the common problems for the whole human race. Separation science and technology are playing an important role in all the areas mentioned above. Therefore, we hold this conference in an attempt to provide a platform for scientists and engineers to get together to exchange their ideas and achievements in chemical and biochemical engineering fields, thus to raise the awareness of environmental protection and promote the importance of separation science and technology in this cause.

We look greatly forward to your participation in the conference.

Most sincerely yours,

Prof. Tianwei Tan

Chairman, ICSST' 2007

Dean of College of Life Science and Technology,  
Beijing University of Chemical Technology

## REGISTRATION FEE

Early registration: \$300 (student: \$200)

### THEMES

#### Session I fundamentals

1 Phase Equilibria, Mass Transfer

#### Session II principles

2 Distillation, Extraction, Absorption

3 Adsorption, Chromatography, Ion Exchange

4 Membrane Separation

5 Bioseparation

#### Session III applications

6 Other Separation Techniques

7 Applications of separation

### SUBMISSION OF PAPER

Only papers containing unpublished, original, and significant information will be considered for the conference.

Details on abstract preparation and submission are available at the conference web site:

<http://www.ICSST07.buct.edu.cn>

### TIME SCHEDULE

**Mar 30, 2007** Abstract due (one-page)  
**May 15, 2007** Registration due/ Second circular  
**June 31, 2007** Deadline for receipt of 4-page manuscript  
**July 30, 2007** Final Circular
