

The Korean Journal of Chemical Engineering

May 2010
Volume 27, Number 3

Korean J. Chem. Eng. 27(3) 731-1034
Print ISSN 0256-1115
Online ISSN 1975-7220

INVITED REVIEW PAPER

-
- Heui Kyoung Cho, In Woo Cheong, 731 **Polymeric nanoparticles, micelles and polymersomes from amphiphilic block co-**
Jung Min Lee, and Jung Hyun Kim **polymer**

PROCESS SYSTEMS ENGINEERING, PROCESS SAFETY, TRANSPORT PHENOMENA

-
- Min Chan Kim 741 **Onset of buoyancy-driven convection in isotropic porous media heated from below**
Hong Tak Kim, Taewook Koo, 748 **Parylene-C thin films deposited on polymer substrates using a modified chemical**
and Chinh Park **vapor condensation method**
Muthanna Jabbar Ahmed, 752 **Prediction of breakthrough curves for light hydrocarbons adsorption on 4A molec-**
Abdul Halim Abdul Karim Mohammed, **ular sieve zeolite**
and Abdul Amir Hassan Kadhum
Hari Ponnamma Rani 759 **A numerical study on unsteady natural convection of air with variable viscosity**
and Chang Nyung Kim **over an isothermal vertical cylinder**

CATALYSIS, REACTION ENGINEERING, INDUSTRIAL CHEMISTRY

-
- Behnam Khoshandam, 766 **Mathematical modeling of CO₂ removal using carbonation with CaO: The grain**
Ramachandran Vasant Kumar, **model**
and Leila Allahgholi
Chul-Ung Kim, You-Sung Kim, 777 **Effect of cobalt catalyst type and reaction medium on Fischer-Tropsch synthesis**
Ho-Jeong Chae, Kwang-Eun Jeong,
Soon-Yong Jeong, Ki-Won Jun,
and Kwan-Young Lee
Jong Hun Lim, Won Seob Song, 785 **Kinetic model of glycerol chlorination with hydrochloric acid**
Sung Yul Woo, and Dong Hyun Lee
Supunnee Junpirom, 791 **Thermogravimetric analysis of longan seed biomass with a two-parallel reactions**
Chaiyot Tangsathitkulchai, **model**
and Malee Tangsathitkulchai
Dae Kyu Kang, Chang Soo Noh, 802 **The effect of PtRuW ternary electrocatalysts on methanol oxidation reaction in**
Sang Tae Park, Jung Min Sohn, **direct methanol fuel cells**
Seung Kon Kim,
and Young-Kwon Park
Joongwon Lee, Sunhwan Hwang, 807 **Production of middle distillate through hydrocracking of paraffin wax over Pd_{0.15}**
Dong Ryul Park, Jeong Gil Seo, **Cs_xH_{2.7-x}PW₁₂O₄₀ catalysts: Effect of cesium content and surface acidity**
Min Hye Youn, Ji Chul Jung,
Sang-Bong Lee, Jin Suk Chung,
and In Kyu Song
Xionghou Gao, Zhicheng Tang, 812 **High performance phosphorus-modified ZSM-5 zeolite for butene catalytic crack-**
Haitao Zhang, Conghua Liu, **ing (Rapid Communication)**
Zhongdong Zhang, Gongxuan Lu,
and Dong Ji
Kyung-Ran Hwang, Son-Ki Ihm, 816 **A catalytic membrane reactor for water-gas shift reaction**
and Jong-soo Park
Dae Su Kim, Yun Ha Kim, Jae Eui Yie, 822 **The effect of cobalt precursors on NO oxidation over supported cobalt oxide cata-**
and Eun Duck Park **lysts**

ENERGY

-
- Guo-Wei Chen, Jae-Hwan Cha, 828 **Characterization of an open biocathode microbial fuel cell for electricity genera-**
Soo-Jung Choi, Tae-Ho Lee, **tion and effluent polish**
and Chang-Won Kim

- Yongchai Kwon, Seungmin Baek, Byungwan Kwon, Jinsoo Kim, and Jonghee Han 836 **Evaluation of direct formic acid fuel cells with catalyst layers coated by electro-spray**
- Jae-Young Lee, Jiyong Joo, Jae Kwang Lee, Sunghyun Uhm, Eon Soo Lee, Jae Hyuk Jang, Nam-Ki Kim, Yong-Chul Lee, and Jaeyoung Lee 843 **Effect of hydrogen partial pressure on a polymer electrolyte fuel cell performance**

ENVIRONMENTAL ENGINEERING

- Houzhang Tan, Jinchao Wei, Yunbai Luo, and Ping Yu 848 **Performance characteristics of NO removal by cobalt diethylenetriamine solution**
- Chaloempan Petsriprasit, Jirachaya Namboonmee, and Mali Hunsom 854 **Application of the electrocoagulation technique for treating heavy metals containing wastewater from the pickling process of a billet plant**
- Jung Eun Lee, Jae Keun Lee, and Dong Soo Kim 862 **A study of the improvement in dewatering behavior of wastewater sludge through the addition of fly ash**
- Ji-Sun Han and Chang-Gyun Kim 868 **Characterization of molecular biological indicators to define stabilization of landfills**
- Youngman Cho, Soojeon Yoo, Pyeongjong Yoo, and Changweon Kim 874 **Evaluation of the effect of baffle shape in flocculation basin on hydrodynamic behavior using computational fluid dynamics**
- Dan-Ying Zuo, Hong-Jun Li, Hong-Tao Liu, and Gui-Ping Wu 881 **A study on submerged rotating MBR for wastewater treatment and membrane cleaning**
- Yejin Kim, Hoonsik Yeom, Soojung Choi, Hyeon Bae, and Changwon Kim 886 **Sludge settleability detection using automated SV30 measurement and comparisons of feature extraction methods**
- Hye Ok Park, Sanghwa Oh, Rabindra Bade, and Won Sik Shin 893 **Application of A2O moving-bed biofilm reactors for textile dyeing wastewater treatment**

BIOTECHNOLOGY

- Suk Soon Choi, Sang Hwan Seo, Dong Gyun Kang, Jeong Hyub Ha, and Hyung Joon Cha 900 **Removal of neurotoxic ethyl parathion pesticide by two-stage chemical/enzymatic treatment system using Fenton's reagent and organophosphorous hydrolase**
- Sang-Ho Baik 905 **Biotransformation of medium-chain alkanes using recombinant P450 monooxygenase from *Alcanivorax borkumensis* SK2 expressed in *Escherichia coli***
- Yong Wang, Ying-ping Zhuang, Ping Wang, Ju Chu, and Si-liang Zhang 910 **Regulation of meilingmycin in *Streptomyces nanchangensis*: Effect of ammonium ion**
- Lian Hua Luo, Jeong-Woo Seo, Dung Hoang Nguyen, Eun-Ki Kim, Soon Ah Kang, Dae-Hyuk Kim, and Chul Ho Kim 915 **Melanogenesis inhibitory effect of dehydroevodiamine isolated from fruits of *Evo-dia rutaecarpa***
- Pouya Sirous Rezaei, Ghasem Najafpour Darzi, and Hoda Shafaghat 919 **Optimization of the fermentation conditions and partial characterization for acidothermophilic α -amylase from *Aspergillus niger* NCIM 548**
- Moo Hwan Cho, Jintae Lee, Joon Ha Kim, and Henry C. Lim 925 **Optimal strategies of fill and aeration in a sequencing batch reactor for biological nitrogen and carbon removal**
- Jae-An Chun, Jin-Woo Lee, Young-Byung Yi, Seong-Sig Hong, and Chung-Han Chung 930 **Catalytic production of hydroxymethylfurfural from sucrose using 1-methyl-3-octylimidazolium chloride ionic liquid**

SEPARATION TECHNOLOGY, THERMODYNAMICS

- Qun-Sheng Li, Zheng-Ming Yi, Wei-Zhong Liu, and Xu-Feng Sun 936 **Solubility of D(-)-p-Hydroxyphenylglycine danc salt in binary methanol+isopropanol solvent mixtures**
- Dongjae Jeong, Mihye Yun, Jeongsik Oh, Ina Yum, and Yongtaek Lee 939 **Control of oxygen concentration in water using a hollow fiber membrane contactor**

- Sangkorn Kongjao, 944 **Purification of crude glycerol derived from waste used-oil methyl ester plant**
Somsak Damronglerd,
and Mali Hunsom
- Manop Charoenchaitrakool, 950 **Application of gas anti-solvent process to the recovery of andrographolide from**
Wuttichai Trisilanun, *Andrographis paniculatanees*
and Penjit Srinopakhun
- In-Soo Park 955 **Frequency response analysis of the constant molar flow semi-batch adsorption ves-
sel containing core-shell composites**
- Youngson Choe, Kwang-Joong Oh, 962 **Adsorption of carbon dioxide onto BDA-CP-MS41**
Seong-Soo Kim, and Sang-Wook Park
- Dong Min Kim, Young Woo Kim, 970 **A comparative study on the recovery of 1,2-dichloroethane and the removal of ben-
zene contained in the byproducts of VCM process**
and Jungho Cho

MATERIALS (Organic, Inorganic, Electronic, Thin Films)

- Muthu Selvakumar 977 **Hybrid supercapacitor based on poly(aniline-co-m-anilicacid) and activated car-
bon in non-aqueous electrolyte**
and Sethuraman Pitchumani
- Byung-Soo Chun, Phillip Pendleton, 983 **Mesoporous silica synthesis in sub- and supercritical carbon dioxide**
Alexander Badalyan,
and Sun-Young Park
- Metin Arslan 991 **Kinetics of graft copolymerization of acrylamide and 2-hydroxyethylmethacrylate
monomer mixture onto poly(ethylene terephthalate) fibers (Journal Review)**
- Bing Zhang, Dong-Hyun Lee, 999 **Optimization of inverted bulk heterojunction polymer solar cells**
Heeyeop Chae, Chinho Park,
and Sung Min Cho
- Taeyang Kim, Andrew Sharp, 1003 **Effect of synthesis condition and annealing on the sensitivity and stability of gas
sensors made of Zn-doped γ -Fe₂O₃ particles**
and Bing Guo
- Chao Chen, Kwang-Seok You, 1010 **Synthesis of mesoporous silica from bottom ash and its application for CO₂ sorp-
tion**
Ji-Whan Ahn, and Wha-Seung Ahn

POLYMER, FLUIDIZATION, PARTICLE TECHNOLOGY

- Ik Sang Shin, Sung Mo Son, 1015 **Multiple effects of operating variables on heat transfer in three-phase slurry bub-
ble columns**
Dae Ho Lim, Yong Kang, Heon Jung,
and Ho Tae Lee
- Jungin Shin, Won Bae, 1021 **Dispersion polymerization of *N*-vinyl-2-pyrrolidone using fluorine-based surfac-
tants in supercritical carbon dioxide**
and Hwayong Kim
- Mi-Ran Kim, Jeong-Gook Jang, 1028 **Correlation between the ash composition and melting temperature of waste incin-
eration residue**
Sang-Keun Lee, Bu-Yeon Hwang,
and Jea-Keun Lee
