

The Korean Journal of Chemical Engineering

December 2013
Volume 30, Number 12

Korean J. Chem. Eng. 30(12) 2119-2290
Print ISSN 0256-1115
Online ISSN 1975-7220

REVIEW PAPER

- Mizhang Xiao, Hyun-Jae Shin, 2119 **Advances in cultivation and processing techniques for microalgal biodiesel: A review**
and Qiuhua Dong
- Seong H. Kim, Christopher M. Lee, 2127 **Characterization of crystalline cellulose in biomass: Basic principles, applications,**
and Kabindra Kafle **and limitations of XRD, NMR, IR, Raman, and SFG**

RAPID COMMUNICATION

- Liping Guo, Jie Bai, Haiou Liang, 2142 **A facile approach to preparing palladium nanoparticles-embedded polyvinylpyr-**
Tong Xu, Chunping Li, Qingrun Meng, **rolidone (PVP) heterogeneous hybrid nanofibers mats by electrospinning**
Huan Liu, and Yarong Huang

PROCESS SYSTEMS ENGINEERING, PROCESS SAFETY

- Hien Cao Thi Thu and Moonyong Lee 2151 **Analytical design of proportional-integral controllers for the optimal control of**
first-order processes with operational constraints

TRANSPORT PHENOMENA

- Sanjay Pralhad Shirsat, 2163 **Simulation and optimization of extractive distillation sequence with pre-separator**
Shrikant Devidas Dawande, **for the ethanol dehydration using n-butyl propionate**
and Seema Sudhakar Kakade

CATALYSIS, REACTION ENGINEERING

- Thiyagarajan Paramadayan 2170 **Selective catalytic reduction converter design: The effect of ammonia nonuniformity**
and Atul Pant **at inlet**
- Vahid Mahdavi and Ali Monajemi 2178 **Statistical optimization for oxidation of ethyl benzene over Co-Mn/SBA-15 cata-**
lyst by Box-Behnken design

ENERGY

- Manjunatha Shyamsundar, 2186 **Catalytic synthesis of biodiesel from pongamia glabra over zirconia and its modi-**
Sathgatta Zaheeruddin Mohamed **fied forms**
Shamshuddin, and Jaya Narayan Sahu

ENVIRONMENTAL ENGINEERING

- Ramanathan Muralidharan, 2191 **Polyhydroxybutyrate production accompanied by the effective reduction of chem-**
Pillaibakkam Bahukudumbi Sindhuja, **ical oxygen demand (COD) and biological oxygen demand (BOD) from industrial**
Aswathi Sudalai, and K. V. Radha **effluent**
- Anees Abdullah Khadom 2197 **Modeling of corrosion reaction data in inhibited acid environment using regres-**
sions and artificial neural networks
- Panich Intra, Artit Yawootti, 2205 **An electrostatic sensor for the continuous monitoring of particulate air pollution**
and Nakorn Tippayawong
- Nada Sadoon Ahmedzeki, 2213 **Removal of 4-nitro-phenol from wastewater using synthetic zeolite and kaolin clay**
Haider Abdulkarem Rashid,
Asir Abduljabbar Alnaama,
Maha Hadi Alhasani,
and Zainab Abdulhussain

Zhengyu Zhang, Hong Xu, 2219 **Synthesis of single azo disperse dye containing double ester and determination of crystal structure**
and Chunling Zheng

BIOTECHNOLOGY

Jung Hyun Yun, Shailesh S. Sawant, 2223 **Production of polyhydroxyalkanoates by *Ralstonia eutropha* from volatile fatty acids**
and Beom Soo Kim

SEPARATION TECHNOLOGY, THERMODYNAMICS

Mohammad Asadullah, 2228 **Role of microporosity and surface functionality of activated carbon in methylene blue dye removal from water**
Mohammad Shajahan Kabir,
Mohammad Boshir Ahmed,
Nadiah Abdul Razak,
Nurul Suhada Abdur Rasid,
and Airin Aezzira

Syed Mustafa, Muhammad Irshad, 2235 **Adsorption of heavy metal ions in ternary systems onto Fe(OH)₃**
Muhammad Waseem,
Khizar Hussain Shah, Umer Rashid,
and Wajid Rehman

Se Woong Lee, Seong Wook Lim, 2241 **Sequestration of carbon dioxide by *m*-xylylenediamine with forming a crystalline adduct**
Soon Hee Park, Kwang Ha,
Keun Sik Kim, Se Min Oh,
Jin Yong Lee, and Gon Seo

Bahman ZareNezhad, 2248 **Experimental and theoretical investigations on the carbon dioxide gas hydrate formation kinetics at the onset of turbidity regarding CO₂ capture and sequestration processes**
Mona Mottahedin,
and Farshad Varaminian

MATERIALS (Organic, Inorganic, Electronic, Thin Films)

Kyungok Kwon and Younggeun Kim 2254 **Extinction effectiveness of pyrogenic condensed-aerosols extinguishing system**

POLYMER, INDUSTRIAL CHEMISTRY, FLUIDIZATION, PARTICLE TECHNOLOGY

Fatima Mumtaz, Mohammad Zuber, 2259 **Synthesis and properties of aqueous polyurethane dispersions: Influence of molecular weight of polyethylene glycol**
Khalid Mahmood Zia, Tahir Jamil,
and Rizwan Hussain
