

The Korean Journal of Chemical Engineering

May 2013
Volume 30, Number 5

Korean J. Chem. Eng. 30(5) 977-1170
Print ISSN 0256-1115
Online ISSN 1975-7220

INVITED REVIEW PAPER

Donghyun Park and Jeewon Lee 977 **Biological conversion of methane to methanol**

PROCESS SYSTEMS ENGINEERING, PROCESS SAFETY

- Yanyue Lu, Anping Liao, 988 **Design of reverse osmosis networks for multiple freshwater production**
and Yangdong Hu
- Muhammad Tajammal Munir, Wei Yu, 997 **Eco-efficiency and control loop configuration for recycle systems**
and Brent P. Young
- Seungjae Lee, Wonhui Cho, 1008 **Slow drift modeling and compensation in the glass electrode dynamics for the fast**
and Jietae Lee **measurement of pH**

TRANSPORT PHENOMENA

- Reza Salehiyan and Kyu Hyun 1013 **Effect of organoclay on non-linear rheological properties of poly(lactic acid)/poly**
(caprolactone) blends
- In Gook Hwang 1023 **Stability analysis of compositional convection in a mushy layer in the time-depen-**
dent solidification system
- Kyoung-Min Koo, Soowon Lee, 1029 **Heat transfer property of refrigerant-oil mixture in a flooded evaporator: The role**
Sung-Gyu Kim, Young-Man Jeong, **of bubble formation and oil retention**
Jae-Keun Lee, Nae-Hyun Park,
Byung-Chul Na, Yoon-Jae Hwang,
Byung-Soon Kim, Joon-Hyun Hwang,
and Soo Hyung Kim

CATALYSIS, REACTION ENGINEERING

- Wantaek Jo, Hokyung Choi, 1034 **A comparison of spontaneous combustion susceptibility of coal according to its rank**
Sangdo Kim, Jiho Yoo,
Donghyuk Chun, Youngjoon Rhim,
Jeonghwan Lim, and Sihyun Lee
- Yong Liu, Min Wei, Li Gao, Xiyang Li, 1039 **Kinetics of transesterification of methyl acetate and *n*-octanol catalyzed by cation**
and Liqun Mao **exchange resins**
- Chokkalingam Anand, 1043 **The isopropylation of biphenyl over H-mordenite - Roles of 3- and 4-isopropylbi-**
Tomonori Sugimura, Kenichi Komura, **phenyls**
Yoshihiro Kubota, Jong-Ho Kim,
Gon Seo, Ajayan Vinu,
and Yoshihiro Sugi

ENERGY

- Rajarathinam Ravikumar, 1051 **Innovative and intensified technology for the biological pretreatment of agro waste**
Budhi Venkatesan Ranganathan, **for ethanol production**
Kanchana Nandan Chathoth,
and Sriramulu Gobikrishnan
- Jong-Min Lee, Dong-Won Kim, 1058 **Evaluation of the performance of a commercial circulating fluidized bed boiler by**
Jae-Sung Kim, Kyoungil Park, **using IEA-CFBC model: Effect of primary to secondary air ratio**
and Tae-Hee Lee

ENVIRONMENTAL ENGINEERING

- Sarat Babu Imandi, 1067 **Application of Doehlert experimental design for the optimization of cadmium bio-sorption in an aqueous solution by marine yeast biomass of *Yarrowia lipolytica***
Ramakrishna Chinthala, Silas Saka,
Rama Rao Vechalapu,
and Kiran Kumar Nalla
- Haragobinda Srichandan, 1076 **Bench-scale batch bioleaching of spent petroleum catalyst using mesophilic iron
and sulfur oxidizing acidophiles**
Dong-Jin Kim, Chandra Sekhar Gahan,
Sradhanjali Singh,
and Seoung-Won Lee
- Syukriyah Ishak 1083 **Optimization of Fenton process for refinery wastewater biodegradability augmen-
tation**
and Amirhossein Malakahmad
- Liu Zhirong, Xiong Huanjia, 1091 **Adsorption behavior of U(VI)/Th(IV) by acid-leached red mud: A comparative
study**
and Zhou Shaoqi

BIOTECHNOLOGY

- Shengbing Duan, Guoqiang Yuan, 1097 **Simulation of computational fluid dynamics and comparison of cephalosporin C
fermentation performance with different impeller combinations**
Yanli Zhao, Weijia Ni, Hongzhen Luo,
Zhongping Shi, and Fan Liu
- Wa Cao, Sang-Un Lee, Jianhong Li, 1105 **Enhanced production of carboxymethylcellulase by *Cellulophaga lytica* LBH-14
in pilot-scale bioreactor under optimized conditions involved in dissolved oxygen**
and Jin-Woo Lee

SEPARATION TECHNOLOGY, THERMODYNAMICS

- Jin-Bao Wu and Yan-Li Yi 1111 **Removal of cadmium from aqueous solution by organic-inorganic hybrid sorbent
combining sol-gel processing and imprinting technique**
- Cong-Ming Tang and Xin-Li Li 1119 **Separative capability of γ -Al₂O₃ porous ceramic membrane modified by ZIF-8**
- Javad Saien, Farzaneh Moghaddamnia, 1125 **Simultaneous influence of uni-univalent salt aqueous solutions and sodium dode-
cyl sulfate surfactant on interfacial tension of toluene-water**
and Mokhtar Mishi
- Gowrisankar Manukonda, 1131 **Density, ultrasonic velocity, viscosity and their excess parameters of the binary mix-
tures of N,N-dimethylaniline+1-alkanols (C₃-C₅), +2-alkanols (C₃-C₄), +2-methyl-
1-propanol, +2-methyl-2-propanol at 303.15 K**
Venkateswarlu Ponneri,
Sivakumar Kasibhatta,
and Sivarambabu Sakamuri

MATERIALS (Organic, Inorganic, Electronic, Thin Films)

- Young-Sang Cho, Jong Woo Moon, 1142 **Fabrication of superhydrophobic surfaces using structured colloids**
Dong Chan Lim, and Young Dok Kim

POLYMER, INDUSTRIAL CHEMISTRY, FLUIDIZATION, PARTICLE TECHNOLOGY

- Quang Long Pham, Van Hoa Nguyen, 1153 **Polymerization of vinyl pivalate in supercritical carbon dioxide and the saponifica-
tion for the preparation of syndiotacticity-rich poly(vinyl alcohol)**
Yuvaraj Haldorai, and Jae-Jin Shim
- Sung Won Kim, Dong Kyoo Park, 1162 **Pyrolytic characteristics of *Jatropha* seedshell cake in thermobalance and fluid-
ized bed reactors**
and Sang Done Kim
