

# Korean Journal of Chemical Engineering

Volume 43 • Number 11 • September 2026

43(11) 2861–3154 (2026) • Print: ISSN 0256-1115 • Online: ISSN 1975-7220

## REVIEW ARTICLES

### Biomanufacturing of Synthetic circRNAs for Therapeutic Applications

S. Moon • I. Jang • J.B. Lee 2861

### Current Status And Treatment of Contaminated Soil at Nuclear Facility Sites

I.-H. Yoon • H. Kim • G. Kim • I. Kim 2879

## ORIGINAL ARTICLES

### Constant flow oxygen generation with manganese oxide supported on spherical activated carbon using hydrogen peroxide decomposition

J.-H. Lee • E.-H. Park • J.-H. Shin • D.-S. Park • D.-W. Lee • S.-K. Lee • J.-K. Suh • Y.-S. Hong 2899

### Fabrication of Reduced Graphene Oxide-PVDF Composite Membranes via In-Situ Reduction for Enhanced Desalination by Membrane Distillation

Y. Du • Y. Dou • Y. Li • W. Li 2911

### Ultrasound Coupled Chemical Leaching of Metals from W-LIBs using Organic Acids: An Intensify Green Approach

J. Agrawal • R.K. Yadav • V.L. Gole • R. Shankar 2929

### Optimizing CCUS–Methanol Integrated Systems Using a Two-Stage Framework: Enhancing Profitability and Sustainability of Coal in the Carbon-Neutral Era

J. Hong • F. Khavari • Y. Choi 2945

### Thermodynamic and Cost Evaluation of Pressurized SOEC Systems Integrated with Nuclear Small Modular Reactors

S.S.A. Shamsi • J.-W. Shin • H. Mumtaz • R.-H. Song • S.-J. Park • J.-E. Hong • H.-S. Kim • D.-W. Joh • T.-H. Lim 2961

### Uncertainty-Penalized Quadratic Surrogate Optimization Using Cross-Validation-Based Ridge Regression

B. Kim • K.H. Ryu 2975

### Numerical Investigation of Chlorine Bypass Probe Installation Position in Cement Pyroprocessing

J. Jeon • J. Im • J. Kim • W. Kim • S. Oh 2987

### Solvometallurgical Recycling of Lithium-Ion Battery Cathode Materials Using Deep Eutectic Solvents and Ionic Liquids

J.T.M. Amphlett • R.I. Foster • W. Yang • S. Aberdeen • S. Choi 3001

### Optimization-Driven Synergistic CO<sub>2</sub> Capture Using a Polyacrylamide-Based Hydrogel with Enhanced Stability and Regenerability

U.S. Behera • G.S. Nayak • D.K. Bal • H.-S. Byun 3011

### Pomelo Peel-derived Active Carbon Aerogel for Methane Adsorption: Performance Evaluation and Mechanism Study

X. Li • J. He • Q. Zhang • X. Hu • R. Mao • C. Chen • Z. Liu • C. Yang • Q. Wang • Y. Li • S. Tian • W. Tang 3029

### Experimental Investigation on the Effects of GO-Al Nanoparticles on CO<sub>2</sub> Hydrate Formation Kinetics

W. Jian • F. Li • Z. Zhang • M. Sun • Y. Hong • D. Ma • Z. Li 3045

### Decoupling the Contributions of Alkali Metals and Volatiles to Synergistic Effects in Biomass-Petroleum Coke Co-Gasification

Z. Shao • M. Ke • J. Wang • X. Ma • X. Zhang • X. Song • Y. Bai • P. Lv • W. Su • G. Yu 3063

### Application of Tertiary Amine (HMTA and TEDA) Modified Activated Carbon in Iodine Removal from Radiological Releases in Nuclear Installation

T. Yaqoob • M. Ahmad • A. Farooq • F. Ali • M.S. Rahman • M.H. Rahman 3077

### S/N Co-Doped Activated Mesoporous Carbon derived from Protein-Rich Dried Pollock for Supercapacitor

G.-J. Park • H.-J. Ahn 3091

### Comparison on the Absorption Capacity of Dipentaerythritol Esters for HFC-134a and HFO-1234ze(E): Solubility Measurement and Modelling

C. Lu • B. Sang • X. Wang 3103
