

Symposium on Separation Technology for Future Circular Economy

Host: Division of Separation Technology

Pusan BEXCO Room 106

2024. 10. 18.(Fri), 09:00~11:00

Chair: Tae-Hyun Bae, KAIST

- | | | |
|-------|--|--|
| 09:00 | [Keynote Lecture] The role of separation technology for carbon neutrality | Jong Nam Kim, KIER |
| 09:50 | [Keynote Lecture] MOF-based membranes for molecular separation: The role and elimination of defects | Gongping Liu, Nanjing Tech Univ. |
| 10:25 | [Keynote Lecture] Advancing asymmetric membranes for carbon capture | Sui Zhang, Nat'l Univ. of Singapore |

Keynote Speaker

Jong Nam Kim, KIER
1994 PhD, Chem. Eng., KAIST
2023 President, KIER
Present Principal Researcher, KIER

Gongping Liu, Nanjing Tech Univ.
2013 PhD, Chem. Eng.,
Nanjing Tech Univ.
Present Prof., Chem. Eng.,
Nanjing Tech Univ.

Sui Zhang, Nat'l Univ. of Singapore
2012 PhD, Chem. Eng.,
Nat'l. Univ. of Singapore
2017 Assist. Prof. Chem. Eng.,
Nat'l Univ. of Singapore
Present Assoc. Prof., Chem. Eng.,
Nat'l Univ. of Singapore

Organizer/Chair

Tae-Hyun Bae, KAIST
2010 PhD, Chem. Eng., Georgia Tech
2019 Assist. Prof., Chem. Eng.,
Nanyang Technological Univ.
Present Assoc. Prof. Chem. Eng., KAIST

Organizer

Dae Woo Kim, Yonsei Univ.
2015 PhD, Chem. Eng., KAIST
2018 Postdoc, Univ. of Minnesota
Present Assoc. Prof., Chem. Eng.,
Yonsei Univ.
